Shabiha Sultana Setu

Atlanta, GA | U.S. Permanent Resident | shabihasultanasetu@gmail.com | (404) 632-6495 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Gained academic exposure to Google Analytics 4, Looker Studio, and Google BigQuery through graduate coursework, complementing hands-on experience in SQL, Python, Power BI, and data visualization.

EDUCATION

Georgia Institute of Technology
Master of Science in Computer Science (Coursework Completed). GPA: 3.66. *Dec 2026*
Kennesaw State University
Master of Software Engineering. GPA: 3.75. *Dec 2024*

SKILLS

Data Analytics & Reporting: SQL, Python, PostgreSQL, MySQL, Power BI, Excel, KPI Reporting, Data Visualization
Web Analytics & Cloud Tools: Google Analytics 4 (GA4), Looker Studio, Google BigQuery (Academic Coursework)
Data Management: ETL, Data Cleaning, Data Validation, Database Queries, Dashboard Development
Business Analysis: Requirements Gathering, Stakeholder Analysis, Reporting Requirements, Process Improvement, Cross-Functional Collaboration

EXPERIENCE

Flight Attendant / Supervisor Mar 2015 – Aug 2021
Saudia Airlines

- Completed a flight operations report after every flight, tracking meal counts and passenger loads of up to 350 passengers on Boeing 777-300 aircraft.
- Documented passenger complaints and escalated recurring issues to management to support operational improvements.
- Analyzed passenger feedback to identify service challenges and recommended process improvements.
- Supervised cabin crew operations for six months, coordinating team activities to maintain operational efficiency.
- Resolved customer concerns in a fast-paced international environment through cross-functional collaboration.

PROJECTS

Healthcare Data Analytics Application — Care Gap Dashboard
Georgia Tech | Spring 2026 | Technologies: Python, SQL, PostgreSQL, FastAPI, Power BI | 25% Contribution

- Built a healthcare application with a team to identify missing or overdue patient care and medication gaps for up to 200 patients using SQL, Python, PostgreSQL, and FastAPI.
- Cleaned and analyzed healthcare data; visualized key metrics through interactive Power BI dashboards to support data-driven decisions.

AI Study Assistant
Georgia Tech | Summer 2026 | Technologies: Python, Streamlit

- Built an independent Python and Streamlit application featuring a learning dashboard to support student study workflows.
- Conducted a usability evaluation through a survey distributed to Georgia Tech students to assess the application's effectiveness.

Burdell Dog — SQL Database Project
Georgia Tech | Summer 2025 | Three-Member Team | Technologies: MySQL, PHP, phpMyAdmin

- Designed an EER diagram identifying entities, attributes, primary keys, foreign keys, and relationships for a dog rescue organization managing dogs, adopters, volunteers, adoption applications, and expenses.
- Created the database CS6400_Spring_team067 in MySQL, implementing tables including Dogs, Breed, BreedDog, TUser, Volunteer, and ExecutiveDirector with defined primary and foreign key relationships.
- Wrote SQL queries using INNER JOIN, LEFT JOIN, RIGHT JOIN, subqueries, and aggregate functions; connected the database to a PHP application using AMPPS and phpMyAdmin.

Business Analyst Training — H2K Infosys
August 2023

- Completed four months of training covering business processes, requirements analysis, SDLC, documentation, and software project workflows.
- Participated in AT&T-based practice exercises to develop foundational business analysis skills.
